

December 14, 2006

Dear Richard,

The Friends of Bennett Creek are indebted to the Army Corps of Engineers – Norfolk District for their support of the Bennett Creek Dredge Project. We would like to take this opportunity to express our heartfelt gratitude for the work accomplished to preserve and enhance Bennett Creek as a safe and navigable waterway for both commercial and recreational use. With the completion of the 2006 dredge project, we would like to especially recognize Steve Powell and Greg Williams for their efforts. We believe that their work significantly contributed to the success of this project. Richard, on behalf of the Friends of Bennett Creek, we would like to ask if you would acknowledge his effort with us by presenting the recognition plaque accompanying this letter to Charles.

Graciously,

Neil Wilson  
Friends of Bennett Creek
